

Klove Radio station serves myself and my family in our local community in such a positive way. It provides uplifting commercial free music that is not played on other stations. It is very informative about important news facts that occur throughout the day. If Klove were to be displaced by a LPFM broadcaster it would effect our community in a very negative way. Many people would not be able hear the music they love that encourages them in such a positive way. Many people would feel very lost and hopeless without this station the way it is. The service that Klove provides to our community is very important in the public's lives. Thousands of people listen dedicated to this station. So many people love this station so much that they support it each month with their own finances, I don't know any other station that has such dedicated listeners. Many people in the public would be very upset if k-love were displaced to LPFM broadcasting and it would be a very serious mistake. Thank you for listening.
